

## Overpack

### *Ideal for overpacking damaged drums for transport*

Ninety-five gallon overpack salvage drum is the safe and economical solution to the transportation and temporary storage of damaged or leaking drums of hazardous materials. Rugged, UV protected polyethylene withstands the rigors of land, air, and sea transportation. "X" rating offers the highest UN and DOT certification available - can be used with all packing classes of hazardous materials I, II, and III including solvents, acids, poisons, and explosives.

100% polyethylene construction provides superior chemical resistance and durability for a variety of uses such as collection and transport, emergency response, contamination site clean up, and spill control kits. Twist-on threaded lid makes closure safe and easy with no separate, troublesome metal band needed. Relocation is simple via forklift from any one of three positions. Units nest when empty for compact storage.

Maximum performance is assured with independent, third party certification for United Nations transport of hazardous materials. Complies with DOT 49 CFR 173.3(c)(1). Also certified to International Maritime Organization (IMO), International Civil Aviation Organization (ICAO), and International Air Transport Association (IATA).

UN Marking 1H2/X340/S

Specifications				
Model No.	Description (cm)	Dimensions (L)	Capacity (kg)	Ship Wt.
28201	Overpack	31 x 43 1/4" (79 x 110cm)	95 gal. (360L)	47 lb. (21kg)

## Labpack

### *Designed for smaller bottles, cans, pails*

Compact 20-gallon Labpack, constructed of 100% "Gator-Tuff" high density polyethylene, offers exceptional strength, impact, and chemical resistance. Convenient twist-on, threaded lid makes closure simple and secure. Unit is ideal for transporting hazardous materials in smaller containers such as bottles. Can be used for a wide range of chemicals, solvents, and corrosives. Ideal for smaller spill control kits. Safely holds medical waste destined for freezer or incineration. Meets UN packaging requirements - complies with DOT 49 CFR 173.12.
